| Description | Built as a TV Studio in 1949 and renovated in 2002, it was the first TV studio in Arizona. Now used for video and still shoots the space has a full ceiling grid and a balcony for shooting down on your subject. | TajMaPaul Studios is centrally located 5 miles from Sky Harbor and next door to a pro lab and professional photo supply. There is a lighting a grip company across the street as well. The main studio is 2500 sq ft. with an eggshell cyc, 49' long by 19' deep by 18' high. A 9x12 garage door provides access for props, autos, and equipment. Portable outdoor cyc 10' wide, 16' platform, 12' backdrop. Also FULL kitchen, wireless, cable, stereo system and PRO FOTO STROBE, As a working studio, we have just about everything you need to make your shoot a success. Member ASMP. | Centrally located in downtown Phoenix, Vermillion Studio is a massive and fully equipped facility, capable of handling any type of shoot. Just five minutes from Sky Harbor Airport, this beautiful 8,000 square foot space has been recently remodeled to include an 18x 18 foot north light studio with 13 foot ceilings and hardwood floors. The studio, in existence since 1987, has two immense open spaces for shooting, one of which contains a full cyclorama. Owner Dan Vermillion is a photographer himself and as such, knows how to run a studio in the best way. |
